

Halaveli Holiday Village

Halaveli is a particularly fine example of the beauty that islands of Maldives have been so richly endowed with. The beaches are dazzling white, the sand soft and caressing to the touch. The island is covered with thick lush tropical vegetation. An unspoilt aquamarine lagoon, shimmering in the sun, encircles the beach.

Breathtaking beauty, though, is not uncommon in the Maldives. What gives Halaveli its rare appeal is the excellent atmosphere - easy-going, relaxed and friendly. You feel at ease the moment you arrive on Halaveli. The management and staff, who regard Halaveli their home away from home, cannot be more welcoming hosts, and you cannot help but feel the good vibes from the moment you are welcomed to the island. You know right then that you have made the right choice, and before long you would be making a mental note to return soon - like so many others have done before you.

The unmatched serenity that can be enjoyed in Halaveli and the ambience that prevails at all times also form the perfect holiday for honeymooners.

If you are energetic, we have a variety of activities for you, from swimming, snorkelling and diving in the ocean, to table-tennis, catamaran sailing, windsurfing, parasailing, darts and other activities which can be enjoyed to your heart's content.

However, Halaveli is ideal for the family holiday as well, with its tranquil atmosphere, a wonderful beach for sun tanning and games on the beach, a shallow lagoon ideal for swimming or snorkelling, and a doctor on call on the island itself. Our island hopping excursions will also prove to be exciting, with trips to both inhabited and uninhabited islands, and barbecue lunches on the beach.

LOCATION

The island of Halaveli is located in Ari Atoll, which contains some of the best dive sites in the country. It takes 20 minutes by seaplane and a short boat ride to get to the island from Male' International Airport.

ACCOMMODATION

There are 50 beachfront bungalows on Halaveli. From the outside they look Maldivian, with their conical, thatched roofs; inside, however, the décor is turn-of-the-century European. All rooms are air-conditioned and each has an IDD telephone and a mini-bar that add convenience to comfort. The bathrooms are modern and spacious, with hot and cold water.

The veranda outside each room faces the beach. Beyond the tall palm trees and thick tropical shrubbery growing in front of the room lie the beach and the beautiful lagoon - a breathtaking view right in front of your own restful beach bungalow.
